

SYSTEMS LIMITED – COMPANY PROFILE REPORT

Introduction

Systems Limited is one of Pakistan's largest and most successful technology companies. Established in 1977, it is widely recognized as Pakistan's first software house and has played a significant role in the development of the country's IT industry. Over the years, the company has expanded from a local software development firm into a multinational technology organization serving clients across North America, Europe, the Middle East, Africa, and Asia-Pacific.

Today, Systems Limited provides digital transformation, artificial intelligence, cloud computing, data analytics, enterprise applications, business process outsourcing (BPO), and software engineering services to organizations worldwide. The company is publicly listed on the Pakistan Stock Exchange under the ticker symbol "SYS."
